INTRODUCTION

MedStar Family Choice District of Columbia (DC) is pleased to provide the *2024 DC Healthy Families and DC Healthcare Alliance Prescribing Guide* for the District of Columbia. This Prescribing Guide is to be used when prescribing for patients covered by the pharmacy plan offered by Medstar Family Choice DC. **This is a closed formulary and only those drugs listed in this formulary will be covered by Medstar Family Choice DC for the DC Healthy Families Medicaid and DC Healthcare Alliance enrollees unless a Medical Exception is requested and approved by Medstar Family Choice DC.**

The drugs listed in this *2024 DC Healthy Families and DC Healthcare Alliance Prescribing Guide* have been reviewed and approved by the Medstar Family Choice DC Pharmacy and Therapeutics Committee. The drugs have been selected to provide the most clinically appropriate and cost-effective medications for patients who have drug benefits administered through Medstar Family Choice DC. There may be occasions when an unlisted drug is desired for medical management of a specific patient. In those instances, the unlisted medication may be requested through the Medical Exception process.

*The information contained in this formulary and its appendices is provided solely for the convenience of medical providers. This formulary is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable. Medstar Family Choice DC does not warrant or assure accuracy of such information nor is it intended to be comprehensive in nature. This formulary is not intended to be a substitute for the knowledge, expertise, skill and judgment of the medical provider in his or her choice of prescription drugs. Medstar Family Choice DC does not assume responsibility for the actions or omissions of any medical provider based upon reliance, in whole or in part, on the information contained herein. **The medical provider should consult the drug manufacturer's product literature or standard references for more detailed information.***

PREFACE

The *DC Healthy Families and DC Healthcare Alliance Prescribing Guide* is organized by sections. Each section includes therapeutic groups identified by either a drug class or disease state. All drugs listed were selected to be on this formulary. If a generic drug is covered, it is listed by generic name and may include the brand-name of the drug in parentheses as a reference to assist in drug name recognition. Brand name drugs are listed by their brand

name. This formulary document lists all dosages, strengths and formulations of each drug that is covered.

Drugs, dosages, strengths, and formulations not listed are considered non-formulary.

HIV MEDICATIONS AND PRE-EXPOSURE PROPHYLAXIS (PrEP)

HIV/AIDS medications, PEP, and PrEP for DC Healthy Families beneficiaries are covered through the District of Columbia Fee-for-Service and are not the responsibility of Medstar Family Choice DC.

For DC Healthcare Alliance beneficiaries, medications for the treatment of HIV/AIDS are supplied through the AIDS Drug Assistance Program (ADAP). All enrollees must apply to the ADAP program and renew every 6 months. Prescriptions for HIV and AIDS medications must be filled at ADAP-participating pharmacies. Prescriptions for PEP and PrEP may be filled at any Medstar Family Choice DC in-network pharmacy and require Prior Authorization.

PLEASE NOTE ON THE PRESCRIPTION that the intended use of the medication is for PEP or PrEP as this will assist the pharmacy in processing the prescription expeditiously.

Additional information can be found at the Medstar Family Choice DC website, medstarfamilychoicedc.com [HIV Medications and Pre-Exposure Prophylaxis \(PrEP\)](#)

LEGEND

“PA” – Drugs that require a prior authorization. See section **Medical Exception, Prior Authorization and Non-Formulary** below.

“ST” – Drugs that require Step Therapy authorization for coverage. Step Therapy requires that drugs be used in a specific prescribing order. More information for ST drugs can be found on the PA table on the Medstar Family Choice DC website, medstarfamilychoicedc.com, in the Pharmacy Benefits section.

Drugs that have an Age-Related Restriction for coverage are indicated with a specific notation next to the medication.

“QL” – Drugs that have dispensing quantity limitation. Drugs are designated with a QL because they are typically not taken on a regular schedule and/or because of potential safety and utilization concerns. The specific limits are noted in the parentheses for applicable drugs.

The Quantity Limit Program provides for a maximum quantity of drug product that an enrollee may receive per prescription and/or over a specific period of time. Many drug products on the *Medstar Family Choice DC Prescribing Guide* have quantity limits based upon the dosage described in product labeling.

OVER-THE-COUNTER MEDICINES

MedStar Family Choice covers many common over-the-counter (OTC) products. You are encouraged to prescribe OTC products when clinically appropriate. A prescription is required, and refills are permitted. Prescriptions may be written for the State limited 12-month maximum. Generic OTC products are preferred when available.

Condoms and emergency contraception do not require a prescription.

DURABLE MEDICAL EQUIPMENT

Blood pressure monitors and at-home diabetic testing machines and supplies are covered as part of the prescription benefit. MedStar Family Choice prefers Accu-Chek branded products when appropriate for patients. These include Accu-Chek Aviva, Accu-Chek Guide, and Accu-Chek Smart line of glucometers and coordinating supplies.

PHARMACY AND THERAPEUTICS (P&T) COMMITTEE

The MedStar Family Choice DC Pharmacy and Therapeutics (P&T) Committee includes physicians, pharmacists, and nurses. The Committee meets quarterly to evaluate drugs for formulary inclusion and to develop policies concerning formulary and drug utilization management. Please visit the Medstar Family Choice DC website at **medstarfamilychoicedc.com** to view the decisions of the Medstar Family Choice DC P&T Committee and any applicable changes. The main features of the Medstar Family Choice DC P&T Policies are also on the website in the FAQs.

PRODUCT SELECTION CRITERIA

The Medstar Family Choice DC P&T Committee considers clinical information on new-to-market drugs that are typically included in an outpatient pharmacy benefit. The evaluation includes all or part of the following:

- Safety
- Efficacy
- Comparison studies
- Approved indications
- Adverse effects
- Contraindications/Warnings/Precautions

- Pharmacokinetics
- Patient administration/compliance considerations

When a new drug is considered for formulary inclusion, it will be reviewed relative to similar drugs currently on formulary. In addition, the entire *DC Healthy Families and DC Healthcare Alliance Prescribing Guide* is reviewed on an annual basis.

All the information in the DC Healthy Families and DC Healthcare Alliance Prescribing Guide is provided as a reference for drug therapy selection. Specific drug selection for an individual patient rests solely with the prescriber.

GENERIC SUBSTITUTION

Brand name drugs that have a generic will be automatically substituted by the pharmacy. Pharmacies will only substitute medications if they are evaluated by the FDA and found to be clinically equivalent. Generic biosimilar therapies will also be substituted when permitted under FDA guidelines.

MAIL SERVICE PRESCRIPTIONS AND 90-DAY SUPPLIES

Medstar Family Choice DC offers a 90-day fill option for many drugs used to treat chronic conditions. These drugs can be found on the Medstar Family Choice DC website, **medstarfamilychoicedc.com** in the Pharmacy Benefit section.

Enrollees are also able to order their prescriptions from CVS Caremark Mail Service Pharmacy™. Receiving a 90-day supply of medication by mail may be more convenient for Enrollees, especially when filling prescriptions for routine or maintenance type medications. Mail service may also improve patient adherence to their therapies.

To start the process, prescribers may call CVS Caremark Mail Service Pharmacy at **1-800-996-5772** or submit a prescription to the CVS Caremark Mail Service Pharmacy. Additional information can be found at the Medstar Family Choice DC website, **medstarfamilychoicedc.com** or at **caremark.com**.

Please note that medications ordered and processed through mail service are typically mailed to the member via U.S. regular mail. As such, please advise members to allow up to 14 days for delivery from the time mail service receives the request. Any prescriptions submitted to mail service for less than a 90-day supply may be returned to the member.

MEDICAL EXCEPTION, PRIOR AUTHORIZATION and NON-FORMULARY REQUESTS

If a drug requiring prior authorization is desired for medical management of a patient, Medstar Family Choice DC has a prior authorization table that can be accessed to see the prior authorization requirements. This table can be found on the Medstar Family Choice DC website, **medstarfamilychoicedc.com**.

If a non-covered drug or a drug requiring prior authorization is desired for medical management of a patient, a medication exception may be requested by calling Medstar Family Choice DC at: **855-798-4244** or send in the completed PA/Non-formulary request form that can be found on the website **medstarfamilychoicedc.com**.

Medstar Family Choice DC must make a decision and notification on all pharmacy requests within twenty-four (24) hours of receipt of the requests. To comply with this stringent turnaround time, we need your assistance with pharmacy requests and ask that your office provides complete clinical information at the time of original submission. Please consult this document and the Pharmacy Prior Authorization table that can be found on our website prior to submitting your request. If additional clinical information is required, please be advised that your office must return it quickly or the request will be denied due to incomplete information.

OPIOID DRUG MANAGEMENT

Medstar Family Choice DC limits "new" opioid analgesic prescriptions to a 7-day supply. A "new" prescription means that a patient has not had an opioid medication filled under MedStar Family Choice in the preceding 90 days or had one short-acting opioid at ≤ 50 morphine milligram equivalents (MME) per day in the previous 90 days, filled within 7 days of a subsequent request. New prescriptions for more than 7-day supply will require Prior Authorization.

For complete information regarding the requirements of the District of Columbia Medicaid Opioid Drug Utilization Review for opioid prescribing, please visit **medstarfamilychoicedc.com** [Opioid Prescribing](#)

FERTILITY DRUG COVERAGE

Beginning on January 1, 2024, MedStar Family Choice DC will pay for drugs ordered to treat female infertility due to anovulation (females whose ovaries do not release eggs). Coverage through any DC Medicaid or managed care plan is limited to three (3) treatment cycles in an enrollee's lifetime.

Enrollees must obtain prior authorization or medical exception approval from MedStar Family Choice DC for any fertility drug ordered for this reason.
